Summary

Product-focused Data Analyst with 2+ years of experience in product analytics, KPI tracking, and data-driven decision making. Skilled in analyzing user behavior, building dashboards, and delivering insights to improve product performance. Pursuing MS in Business Analytics & AI at UT Dallas, seeking Summer 2026 Data Analytics/Data Engineer Internship opportunities.

Education

The University of Texas at Dallas

Masters of Science in Business Analytics & Artificial Intelligence

Aug 2025 – May 2027

Savitribai Phule Pune University

Bachelor of Engineering in Computer Science

June 2019 – July 2023

Technical Skills

- **Programming:** Python, SQL, R, API Integration
- **AI/ML & Analytics:** Machine Learning, Predictive Modeling, Scikit-learn, XGBoost, Feature Engineering, Model Evaluation, KPI Tracking, Funnel Analysis
- **Tools:** Power BI, Tableau, Excel, AWS, JIRA
- **Data:** ETL Pipelines, Data Modeling, Data Cleaning, Data Validation

Experiences

The University of Texas at Dallas | Student Assistant – Library

Jan 2025 – Present

- Managed and tracked 10K+ library assets using RFID systems and database records, improving inventory accuracy and retrieval efficiency.
- Automated patron account and circulation reporting in Excel, reducing manual effort and improving reporting efficiency and data consistency.
- Maintained and validated inventory and supply datasets, streamlining tracking processes and reducing discrepancies through structured data management.

Embed Square Solutions Pvt. Ltd. | Data Analyst

Feb 2024 – June 2025

- Analyzed user behavior trends to support product planning and feature improvements, contributing to 3+ strategic decisions.
- Built 10+ Power BI dashboards tracking KPIs (engagement, revenue, operations), improving visibility by 30%.
- Designed ETL pipelines using Python/SQL, improving data availability by 40% for product reporting.
- Automated recurring reporting workflows, reducing manual reporting effort and improving consistency of product insights.

HighRadius Corporation | Project Management Intern

Aug 2023 – Jan 2024

- Assisted in tracking 10+ concurrent automation initiatives by maintaining project schedules, risk logs, and KPI dashboards in Excel and Jira.
- Prepared project performance reports and executive summaries to support stakeholder reviews and decision-making.
- Participated in sprint planning meetings, documented action items, and supported follow-up coordination across technical and business teams.
- Contributed to process documentation and structured reporting frameworks, improving schedule adherence by 15%.

Projects

Customer Churn Prediction & Retention Modeling | Python, Scikit-learn, SQL

- Built classification models (Logistic Regression, Random Forest, XGBoost) on 100K+ records, achieving ROC-AUC of 0.88.
- Evaluated models using ROC-AUC, precision-recall, and cross-validation to ensure robustness and generalization.
- Performed feature engineering and segmentation to identify churn drivers, improving projected retention by 18%.
- Developed an interactive Power BI dashboard to monitor churn risk, customer segments, and retention KPIs for data-driven decision-making.

Customer Data Pipeline & Behavioral Analytics | Python, SQL, Power BI

- Designed and implemented an ETL pipeline to process and analyze 500K+ customer records using Python and SQL.
- Optimized SQL queries and data transformations to improve processing efficiency and scalability of analytics workflows.
- Conducted funnel and cohort analysis to identify user drop-offs, improving conversion rates by 15%.
- Built dashboards tracking acquisition, retention, and engagement metrics, improving targeting efficiency by 30%.

Leadership

Microsoft Student Ambassador – UTD | Student Ambassador

Jan 2026 – Present

- Lead 10+ workshops on Microsoft 365 and Power BI for 50+ students, driving adoption of data visualization and analytics workflows.
- Design and deliver hands-on training on data integration and reporting, improving proficiency in Microsoft analytics tools and KPI tracking.
- Collaborate with teams to develop and present data-driven solutions using Microsoft tools, strengthening analytical and communication skills.

Product Base Club – UTD | Officer

Sep 2025 – Present

- Drive 20+ product case discussions on analytics and KPI frameworks for 50+ students, strengthening data-driven product thinking.
- Guide teams in solving product cases using data analysis, user metrics, and structured experimentation approaches.
- Collaborate with peers to develop product insights and recommendations, applying analytics and business problem-solving skills.
